

The Annual Parish meeting is scheduled for this Wednesday evening, 22nd May, at the Village Hall at 6.30pm

This is everyone's, once a year opportunity to hear what the Council has achieved this past year but more importantly, to express their views on what the village needs or to express any concerns.

Perhaps a children's playground would be a good idea or to investigate the possibility of having allotments. This is the one opportunity to put forward ideas. I personally would like to see our website completely revamped and become much more interactive. A real resource not only for the Council but also the village as a whole.

If you are interested in putting forward projects for consideration for the Council to consider then this is the place to be to ensure that your voice is heard.

Hope to see you there - Wednesday at 6.30 pm.

Following the meeting there will be a full Parish Council meeting that is also be open to the public.
